EXPERIENCE

Owner / Full Stack Developer
Aug. 2020 – Present

Mythic Tech — *Remote*

- Built multiple enterprise applications with varying technologies: Node.js, React.js, AWS, PostgreSQL, MongoDB, Prisma, and Web3.
- Established and maintained strong client relationships, understanding their needs and delivering tailored tech solutions that exceeded expectations.
- Designed scalable and secure cloud architectures in AWS using diagram tooling (Miro), Terraform, and Serverless Framework, ensuring robust and reliable solutions for clients.
- Oversaw all software releases with an eye for quality and adherence to project deadlines, leading to consistent client satisfaction and repeat business.
- Managed team of 5 full-time employees and 9 contractors, eventually growing monthly revenue to $40k.

Founding Full Stack Developer
July 2022 – July 2023

Syrup.io — *Remote*

- Built numerous vital features for launch using Next.js, Node.js, TypeScript, GraphQL, PostgreSQL, and AWS, contributing to a robust and scalable platform.
- Authored comprehensive standards documentation for incoming developers, ensuring consistency and quality in future development efforts.
- Designed and managed a sophisticated data architecture to handle large-scale data ingestion and analytics, leveraging AWS services.

Lead Front End Developer
July 2016 – Sept. 2020

Xngage — *Middleburg Heights, OH*

- Led the UI practice, establishing workflow processes and consistent coding standards, significantly improving code quality and team efficiency across all projects.
- Coordinated project requirements to implementation, providing accurate sizing estimates and detailed task breakdowns.
- Initiated the adoption of cutting-edge frontend technologies and frameworks, keeping the consultancy at the forefront of industry trends and standards.
- Actively engaged with clients to understand their unique needs, leading to tailored UI solutions that directly addressed key business challenges.

Senior Front End Developer
Sept. 2015 – July 2016

Syndicated Loan Direct — *New York, NY*

- Optimized interface to handle and display extensive loan documents and large data sets.
- Led agile development processes, accelerating feature deployment to meet tight deadlines for investors.
- Developed advanced data visualization features for complex loan datasets, aiding in user comprehension and decision-making.

Associate Front End Developer
June 2013 – Sept. 2015

Rosetta Marketing — *Cleveland, OH*

- Ensured cross-browser compatibility and optimization for a variety of web applications.
- Collaborated with design teams to transform visual designs into accurate web interfaces.
- Implemented responsive web design techniques to create mobile-friendly websites.

EDUCATION

Ashland University
Ashland, OH

Bachelor of Science in Computer Science, Minor in Entrepreneurship — *Aug. 2009 – May 2013*
